

INFINILED EMERGENCY BATTERY PACK

MODEL LXEP01

Our specifically designed plug and play INFINILED LED strip 3 hour emergency back up system will keep the strip working in the event of a power cut. Offering 3 hours back up to 100m of 5w/m and 3 hours back up to 50m of 12w/m the LXEP01 is your perfect compliant emergency lighting solution for your project.

TECHNICAL DATA

Model.:	LXEP01
Input Volt:	AC100~277V ≤7A 50/60 Hz
Output Volt:	DC50~180V
Lamp Power:	1500W Max
Emergency Power:	50W Max
Emergency Time:	3 Hour
Battery Charge:	24HR (full charge)
Input cable:	1.2 meter length, 2*1.5mm ²
Output cable:	0.5 meter length, 2*1.5mm ²
Ta:	-10~50 C
Tc:	Max 60 C
IP Grade	IP65
Warranty:	2 Years

- Emergency power supply solution for 110v and 230v INFINILED strip light
- Output voltage 175v when emergency function is operational
- Maximum emergency power is 50w
- 3-hour emergency backup
- Charging battery indicator light
- Max run: 110v 100m 5w/m = 3 hours
- Max run length: 110v 50m 12w/m = 3 hours
- Max run length: 230v 100m 5w/m = 3 hours
- Max run length: 230v 50m 12w/m = 3 hours
